As experts in UV Protective Clothing for over 10 years, SunSibility prides itself in providing high quality sun protection for all the family. We are committed to helping our customers enjoy the sun safely. All our garments are made with a specialist SPF50 material that prevents 97.5% of the sun's rays, is chlorine resistant, breathable and quick drying.

With a concept based on layering SunSibility has carved its niche for effective and stylish solutions in the sun protective market. We have worked with our customers and the medical profession to design the SunSibility range. The result is a collection that not only provides the best sun protection possible but is a pleasure to wear.

All garments are made to order and delivered directly to your door.
